Acute Communicable Disease Control Program
Acute Communicable Disease Control Manual (B73)

November 4, 2009

PART I: COMMUNICABLE DISEASE CONTROL MEASURES Modification pending

PART II: REGULATIONS FOR HEALTHCARE ORGANIZATIONS Modification pending

PART III: MORTICIANS AND CEMETERIES Modification pending

PART IV: COMMUNICABLE DISEASE CHAPTERS	REVISION DATE	MODIFICATIONS
Amebiasis	April 2008	case & contact control only applies to food employees, not other SOS
Anisakiasis	1999	
Anthrax	August 2007	differential diagnosis; communicability; reporting procedures; revised report form
Botulism	July 2007	
Brucellosis	1999	
Campylobacteriosis	March 2008	reporting procedure; if outbreak advise supervisor and ACDC; definition of presumptive cases added
Chagas Disease	August 2007	
Chickenpox	August 2006	
Cholera	1999	
Clostridium Difficile	Chapter to be added	
Coccidioidomycosis	April 2008	case definition change
Cryptosporidiosis	March 2008	specific treatment
Creutzfeldt-Jakob Disease (CJD)	Chapter to be added	
Cysticercosis (Taeniasis)	1999	
Dengue	1999	
Diarrhea of the Newborn	January 2006	
Diphtheria	March 2006	
<i>E. Coli</i>	June 2009	incubation period correction: 1 to 10 days
Echinococcosis	1999	
Ehrlichiosis	January 2006	
Encephalitis, Acute Viral	1999	
Encephalitis, Arboviral	January 2006	
Foodborne Disease	1999	
Gastroenteritis, Viral	September 2009	new laboratory protocol
Giardiasis	May 2008	antigen detection by DFA assay available; specific treatment; obtain recreational water use; investigation is required for outbreaks and for single cases not limited to SOS, additional prevention-education
<i>Haemophilus influenzae</i>	March 2006	
Hantaviral Pulmonary Syndrome	January 2006	
Hepatitis, Type A (HAV)	November 2007	

Hepatitis, Type B (HBV)	September 2007	
Hepatitis, Type B, Perinatal	March 2006	
Hepatitis C	September 2007	
Influenza	August 2009	
Kawasaki Syndrome	April 2008	no major change
Legionellosis	April 2008	a single confirmed case at any healthcare setting will be investigated; reference to guidelines for healthcare-associated pneumonia
Leprosy	October 2009	changes with case follow-up
Leptospirosis	1999	
Listeriosis	1999	
Lyme Borreliosis	1999	
Malaria	1999	
Measles	May 2008	read the entire chapter for numerous changes; for example, Kawasaki disease added as differential dx; do not wait for lab confirmation before reporting; investigation by IP and CHS; immunization indication
Meningitis, Viral	1999	
Meningococcal Infections	December 2007	
Mumps	March 2006	
Mycobacteria, Nontuberculosis-causing	1999	deleted
Paratyphoid Fever	January 2008	specific treatment; reporting procedures including collection of epidemiologic data; control of case, contacts & carriers,
Pediculosis (outbreaks)	February 2007	
Pertussis	August 2008	Nasopharyngeal Specimen Collection Procedure attached; Reporting Form updated
Plague	January 2006	
Pneumococcal, Invasive Disease	1999	
Poliomyelitis	March 2006	
Psittacosis	August 2006	
Q Fever	1999	
Rabies	August 2009	added a section of Prevention of Rabies After Animal Bites
Relapsing Fever	1999	
Respiratory Disease Outbreaks	October 2009	new forms
Reye Syndrome	1999	deleted, not reportable any longer
Ringworm of Scalp	January 2006	
Rocky Mountain Spotted Fever	January 2006	
Rubella, Acute	March 2006	
Rubella, Congenital	March 2006	
Salmonellosis	March 2008	reporting procedure; report form and contact roster attached; additional epi data; presumptive case definition & f/u added; if outbreak identified during individual case investigation consult w/supervisor and notify ACDC by phone
Scabies	May 2008	

Severe Acute Respiratory Syndrome (SARS)	August 2006	
Shigellosis	February 2008	presumptive case definition & f/u added; if outbreak identified during individual case investigation consult w/supervisor and notify ACDC by phone
Smallpox	August 2007	
Staphylococcal Infections	1999	
Streptococcal Infections, Grp A	1999	
Streptococcal Toxic Shock Syndrome	September 2008	expanded description of signs of coagulopathy
Tetanus	March 2006	
Toxic Shock Syndrome	1999	
Toxoplasmosis	January 2006	
Trichinosis	1999	
Tularemia	1999	
Typhoid Fever, Acute	January 2008	revised surveillance report attached; release form attached
Typhoid Fever, Carrier	January 2006	
Typhus, Flea-borne	1999	
Vibriosis, Non-cholera Species	April 2008	contacts include household members or persons who share a common source; treat SOS as a case; may obtain specimens on non-SOS contacts; surveillance report form attached
West Nile Virus	No update since 2003	
Yellow Fever	1999	
Yersiniosis	May 2008	no major change
