

Animal Health Update: Public Health Outreach to Veterinary Practices,
Plus 2017 Animal Disease Report
12.13.19

Dear colleagues,

The 2019 Veterinary Public Health Manual outreach has begun to all veterinary clinics and facilities in Los Angeles County! The manual has been updated and contains important information about rabies control, animal disease reporting, and other topics that directly affect veterinary clinics and staff. Be on the lookout for one of our veterinarians or inspectors to visit your practice to hand-deliver the manual and briefly go over some of the topics such as what is legally reportable to us.

We have also published online our 2017 Animal Disease Surveillance report.

Before we visit your practice, you may find the updated manual and multiple years of disease reports on our website here: <http://publichealth.lacounty.gov/vet/Reports.htm>

Sincerely,

Karen Ehnert, DVM, MPVM, DACVPM
Director, Veterinary Public Health
