LOOKING FOR A SUMMER JOB?

Come to our Youth@Work Summer Hiring Kickoff! Don't miss your chance to work with local businesses, nonprofits, and LA County departments. If you're between the ages of 14 and 24, this is your moment to meet employers, interview on the spot, and sign up for the Youth@Work program. You might even walk away with a job offer! Kickstart your summer with a great job opportunity!

Y@W BENEFITS:

Earn \$17.28 per hour with 160 hours of work experience and soft skills training.

PROGRAM ELIGIBILITY:

Youth ages 14-24 who identify as foster or justice system impacted, experiencing homelessness, out of school, LGBTQ+, or from a CalWORKs or low income household.

ENROLLMENT DOCUMENTS:

Bring your ID, social security card or birth certificate, work permit if 17 or younger, and resume. If you don't have these documents, we will help you gather what you need to get ready for employment.

DEO, LACWDB, and the Los Angeles County America's Job Centers of California are equal opportunity employers/programs. Auxiliary aids and services are available upon request to individuals with disabilities.

Stay connected! Follow @EconOppLA on Facebook, Instagram, and Twitter.

Did You Know? June is Men's Health Week

Men's Health Week, observed June 9th through June 15th, is the week leading up to Father's Day, raising awareness about preventable health issues and encouraging early detection and treatment of health conditions affecting men. According to the Los Angeles Almanac, in 2022, the leading causes of death among men in Los Angeles County included heart disease and cancer. Prostate cancer is the most common type of cancer and the second-leading cause of cancer death among men in the United States, according to the American Cancer Society's Cancer Prevention and Early Detection Facts & Figures 2023-2024 Report. Men are often at higher risk for diabetes, stroke, and mental health challenges due to delayed healthcare visits and a lack of preventive care screenings. Routine check-ups, a commitment to healthy lifestyle habits, and candid conversations about physical and mental well-being are essential for early detection. Encouraging openness and awareness can also help calm fear of the unknown and improve overall health outcomes.

Call to Action

Take the first step! Schedule an annual check-up and talk with your healthcare provider about recommended screenings for blood pressure, cholesterol, blood sugar, prostate health, and other concerns. Learn about the prostate-specific antigen (PSA) test and discuss the benefits of getting screened starting at age 45 with your doctor. Incorporate movement, balanced nutrition, and stress management techniques, such as mindfulness or breathing exercises, into your daily routine to support your health and manage or reduce your risk of developing chronic conditions. While healthy habits are essential at every stage of life, health concerns and recommended screenings change as you age. Stay informed about screenings for men at every age to detect issues early, when they are most treatable. Encourage the men in your life to make their health a priority. Sign up for Men's Health at Every Age on June 3rd to learn more about risk factors, signs, and symptoms of conditions that affect men.
