# Open Intake Schedule Reminder

- ✓ Providers who report available intake slots should be reporting up-to-date intake appointment hours on the SBAT. In addition to bed count and intake slots, **please ensure that the Intake Appointment Schedule is populated/filled out with the intake hours.**

## Instructions for Updating Intake Appointment Hours:

1. Navigate to the Service & Bed Availability Tool (SBAT) login page at: <https://sapccis.ph.lacounty.gov/SBATProviderSite>
2. To change or update appointment hours for a given day or week, click on the calendar icon to access the SBAT Intake Calendar tool. This function is for both Outpatient Services (including Intensive Outpatient) and Residential Services (all levels).
3. Input the start and end times (or last intake appointment) for intake hours per day. This will not revert to zero each day and should only be updated when changes need to be made. Changes can be made to one or more days.

**\*Note intake hours are separate from business hours.**
