Dr. Brian Hurley (DPH) suggested that one potential option is for licensed prescribers to access the CURES database to verify controlled substance prescriptions when records are unavailable. Paula Torres (Compatior) raised concerns for first-time clients who lack identification, noting that this issue has increased due to a rise in mental health referrals. Jina Tintor (Homeless Healthcare LA) shared that her agency has invited mobile ID vendors on-site to assist clients in obtaining identification. Liana Sanchez (L.A.
